DETAILED ACTION

Allowable Subject Matter

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the attached PTO 892 and IDS forms. None of the references or combinations thereof disclose or suggest forming an electron emission material by depositing the emission electron material on the surface of the substrate structure where the isolation layer is formed, the electron emission material layer filling the holes; removing the isolation layer and the electron emission materials, which are formed on the sacrificial layer, and forming the emitters inside holes using the electron emission material layer by performing a lift-off process using an etchant, the lift-off process for removing the sacrificial layer that is formed on the surface of the gate electrode and the inner walls of the holes; and firing the emitters as required by the presently claimed invention. Therefore, Claims 1-14 are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander G. Ghyka whose telephone number is (571) 272-1669. The examiner can normally be reached on Monday through Thursday during general business hours.
